# Introduction

VGFSWAP is a Decentralized Exchange (DEX), was developed by anonymous developer to create a new-gen exchange, which is: compatible with any kind of system load, fully secure, user-friendly and as well as adapting trending DEFI direction.

A decentralized exchange is a set of permissionless smart contracts deployed on the blockchain that allows users to exchange between an asset to another while keeping full custody of their assets.

## Personal Staking

This type of staking is implemented entirely through a smart contract, that is, all calculations take place publicly and everyone can check them. All allocated VGF tokens are proportionally distributed through the Personal Staking Pool. Proportionality is determined by the amount of VGF tokens that a person stakes. The more a person stakes VGF tokens, the more VGF tokens from the pool he/she will receive. Personal Staking Pool is the number of VGF tokens allocated by a smart contract every day for distribution via staking on a smart contract.

## Referral Program Requirements

You are compulsory to purchase \$15 worth VGF token ( initial value is \$0.02 per VGF token) and staked based on packages to get an affiliate referral in your VGFSWAP dashboard. This VGF tokens shall be locked for transaction fee and also could not transfer for staking purpose. If you refer someone who stakes VGF token you will get 10% Direct Referral Rewards on his / her Staking amount. You can receive a maximum of 20% of the referral's farmed VGF amount but should be 5 direct referral with invested at minimum amount of staked. The amount of daily staking rewards depends on the affiliate package choosing. The reward is credited automatically once a day. The system keeps track of direct sale volume to qualify you the rank achievement.

## Claim and exchange VGF Token

In VGFSWAP have claim reward button feature ,The minimum claim reward should be \$25 worth VGF tokens. The claim reward will be split into two portions, 70% to usdt bep20 and 30% to VGF tokens. This 30% of VGF tokens in your blockchain wallet can be used for transaction fee or staking. 1% in VGF token as transaction fee an every claim reward from staking pool and 0.5% charges for any exchange in VGFSWAP platform. This transaction fee will be applied as burning mechanism.
